

**To the members and representatives of the International Federation of Liberal Youth:**

On behalf of the Liberal Youth of Sweden (LUF), we are both proud to recommend Daniel Wennick for a second term as IFLRY Vice President.

During his first term as IFLRY Vice President, Daniel Wennick has shown he possesses the commitment and drive that is necessary for IFLRY to grow into a more robust and professional organisation.

Furthermore, Daniel has proven his strong commitment to human rights and democratization through his work with liberal youth organizations in Cuba, Russia and Belarus, to name a few. During the year his passion for the work of democratization resulted in his arrest in Cuba, this should clearly demonstrate to the community of liberal youth that Daniel is ready to risk a great deal so that young people around the globe can know freedom. He has a passion that is crucial for IFLRY if it is to succeed in its work with liberal youth around the world.

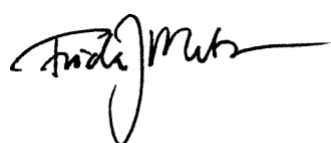

Before joining the IFLRY bureau, Daniel had a broad career in liberal politics in Sweden. Daniel has managed to hold several leadership roles such as President of the Association of Liberal Students of Sweden in Stockholm, while being heavily involved in LUF's international work.

Our organization is honored to nominate Daniel for a second term as IFLRY Vice President. We believe that Daniel is an important part of the IFLRY bureau and urge the delegates to vote for a person that can help IFLRY become a more respected political player and develop the organization to meet the demands of its members.

Best regards,

Lesli Proffitt Nordström  
International Officer, LUF

Frida Johansson Metso  
President, LUF
