

# Draft Resolution

**From:** Jong-VLD, JOVD and VU

**For:** Extraordinary General Assembly , Dallas, 20-22 July 2007

**Subject:** Growth and Prosperity is most easily obtained with a Flat tax

---

The International Federation of Liberal Youth (IFLRY):

Noting that:

- As liberals we acknowledge taxation as a necessary evil
- The tax system must be such, that the damage it inflicts on the incentives for working is as small as possible
- The purpose of taxation is to collect money, not punish the ones who are good at earning them

Considering that:

- Many countries have big problems with so called “moonlight working”.
- No individual should pay more in taxes than it can keep for itself
- A flat tax system will be much simpler and thus cheaper to administer
- A flat tax system is much easier to understand for the citizens
- Many countries in Eastern Europe have experienced high growth rates after implementing a flat tax system

Calls upon:

The members of IFLRY and Liberal International to work for a flat tax system in their home countries.
